

TO: All OKAA Members the date to recertify is 12/31/2015:

Please remember that the OKAA considers recertification to be an individual responsibility, please submit your recertification by 12/31/2015.

Recertification Directions: Please read entire packet

1. Complete the 2015 recertification application.
2. Attach a copy of a current CPR card (make sure to submit a copy of both sides of your card).
3. Enclose the \$50.00 Renewal fee (check or money order).
4. Mail the application and fee to the OKAA address below before 12/31/2015, or submit in person to the OKAA elected secretary.

**Mail recertification documentation to:**

OKAA

3701 NW 62nd St

Oklahoma City, OK 73112

Note the changes made since the last renewal year:

**Certified Member:**

A onetime fee of \$125 covers your application fee. If approved this will certify you for 1 year as a member who has applied for and met criteria set forth by the OKAA as standards of care within the State of Oklahoma. Certified members are required to maintain continuing educational hours, that is not limited to certification in CPR. Level one members attend regular meeting and have voting privileges. The annual renewal fee is \$50.

**General Member:**

This level member is a practitioner of natural healing in some way, up to and including being an acupuncturist, but elects not to be a certified member. General

members attend regular meeting and have voting privileges. The membership fee is \$50, and remains as \$50 annual renewal fee.

**Student Members:**

Student members are listed only under the school that they are studying under. Student members attend regular meeting and do not have voting privileges. The membership fee for students is \$35.00.

**Friends of Acupuncture:**

This level of membership is for private individuals who support the actions of the OKAA and are invited to its quarterly business and educational meetings. The membership fee at this level is \$15.

Members can renew their membership at the certified level only if submitting the required continuing education hours and CPR documentation. If a member fails to meet these requirements in a given year, they may (without penalty) renew the following year at the “certified member” level if continuing education hours and CPR certification is met at that time.
