June 12, 2016 minutes from Oklahoma Acupuncture Association quarterly meeting in Tulsa at Cancer Treatment Centers of America.

[Upcoming Meetings and Events](#)

Delivered by B. Carol Flack, Secretary

As the OKAA President was absent, Secretary B. Carol Flack convened the brief meeting in Tulsa at the Cancer Treatment Centers of America. After the call to order, Carol read the minutes from last meeting. The minutes were approved. The Treasurer, Dr. Yang, gave the financial statement and the financial statement was approved. Communications Officer, Brandy Valentine gave the communications report. Brandy requested all updates to member information be placed on the sign in sheet.

Educational Officer, Tim Williamson was not present, Carol Flack read his education announcement. Regarding the next educational topic for the quarterly meeting, it will be the first of a two-part series "Pediatrics to Geriatrics". Additionally NCCAOM has approved our 17 CEUs for the upcoming Symposium. Brandy, Communications Officer, handed out the symposium brochure for the OKAA members to review. An error was noted in the symposium dates and Brandy is going to follow up on the corrections to the dates.

Carol asked if there was any old business to present. None was brought up. Carol read the new business outline by Tim Williamson, "In an attempt to shorten the business meetings, it has been requested that anyone with new business please submit to an elected official at least two weeks in advance of a meeting". Vote on this was deferred till the next meeting to assure quorum and binding vote.

Per Tim's "new business outline", students were to have a presentation regarding membership drive and student membership. Since student Leslie was to deliver this presentation and she was not present, this presentation was deferred until next meeting. Furthermore, Tim had offered a written suggestion that any student who remains a student member during their training and is active, should have the \$125.00 certification fee waived. Students in the above mentioned category should attend no less than 50% of all meetings and at least one OKAA symposium to be eligible to have the certification application fee waived. This last suggestion was discussed; pros and cons of waiving the fee were discussed. Most of the commentary on waiving the fee this was not in favor of of thi action. An alternate proposal was made: instead of waiving the certification application fee, for students, a way in which all members might receive some type of discount would be that any person who pays their dues in full at the next business meeting would receive \$10.00 off their next year's dues.

The discussion was then tabled as we were uncertain if we had a quorum and if our votes on these issues would be binding or not.

Next meeting was set for September 11, 2016. B. Carol Flack adjourned the meeting.

The meeting was followed by a 2 hour seminar on Jin Shin Jyutsu presented by member Mark Hovis.
