Notes from the Sunday 12-8-13 OKAA Meeting held at the home of Angela Brazeal

[Upcoming Meetings and Events](#)

- Angela Brazeal
- Mark Hovis
- Yvonne Van Eijk
- Eldon St.Clair
- Teresa Wilkerson
- Anna Veronesi
- David Zeliff
- Dr.Xi Li
- Helen Zhou

Mark opened the meeting with a verse from Lao Tzu, subtle virtue of the universe.

- Yvonne read the minutes from the last meeting;
- * The symposium was voted to be held regardless of numbers in attendance
- *Voted on instructor pay
- *Officer election was tabled

Discussion on the symposium - Would it be advised to hire a company/person(s) to coordinate and market future OKAA sponsored symposiums? We could pay them a base price + commission at the end.

Our turn out was possibly minimal due to the lack of need for CEU's in the state of OK. Mark suggests strengthening our CEU component through the OKAA certification process, and possibly join forces with the Chiropractors.

Teresa shared the story about working on legislation in 1998/1999. Where she and Jeff worked with the NCAAO president at the time to define a certification route for both OK and National certification simultaneously. Jeff devised a test which was approved by both the NCAAO & OKAA. It came very close to passing, unfortunately Clark Manning rallied a group to stop the legislation. The documents still remain shelved in OKC.

Why have another symposium in OK? What is the intention?

March 9th, (2nd Sunday) at Dr. Gumman's new office in OKC.

- Angela - volunteers to be secretary
- Yvonne- treasurer
- Mark - president
- Anna - vice president

Yvonne - Suggests that we define each office job description. (This suggestion was also made by Cindy Henson, who felt like the scope of responsibility as OKAA secretary was unclear and misleading)

Angela asks the question, What are we looking for as an organization when it comes to education?

Dr.Li - in answer - Practical information that I can use in my practice, how is this information being taught useful? Are there any dangers or contraindications?
